Harmony Greenhouses

Harmony Greenhouses is a family-owned greenhouse operation located in Harmony Township, Warren County, NJ. We sell plants and flowers to garden centers, supermarkets, schools and churches.

For nearly 50 years, we have helped beautify the tri-state area with a rainbow of seasonal flowers and plants. As an offshoot of Geerlings Greenhouses, growing is in our roots— with tulip bulb farmers on both sides of the family for generations.

Flower and Plant Selections

Spring flowers: lilies, tulips, daffodils

Flowering potted plants: geraniums, hosta, petunias, day lilies, daisies, impatiens

Holiday and seasonal favorites: Easter lilies, hardy mums, Christmas poinsettias

Plus, much more to choose from!

“Grow it Yourself” Makes a Comeback in Tough Economy

Harmony Greenhouses thanks you for your continued support, especially through these challenging times.

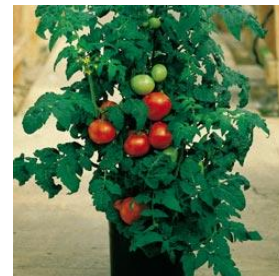

As our partner in success, we are committed to sharing strategies that help you sell more plants and grow your profits!

The good news is that “grow it yourself” is making a comeback. More and more families are growing their own vegetable and herb gardens as well as experimenting with flowers, plants and shrubbery.

Offer easy solutions like planting the entire contents of your hanging planter directly into a garden bed.

Ideas in Bloom: add instant appeal to your in-store plant displays

Suggest creative combos... like pairing yellow daffodils with red tulips!

Choose easy-care plants.

Our patio tomatoes are popular with the growing container gardener crowd.

Let Your Signage Tell a Story

Talk up the benefits of “growing your own”

Gardening is healthy for the body, mind and soul!

Home grown vegetables taste delicious, lend variety to meals and keep you healthy and strong.

Fresh flowers lift the spirit as they add a splash of color and perfume to your landscape or tabletop.

Gardening burns calories, builds muscle & even lowers blood pressure.

Potted plants make great gifts that keep on giving all season long!

Planting & caring for plants is easy! Just read and follow the instructions, and don't forget to water and weed.
